Pavillion Audit Summary 6 1 12.xlsx

Dom,

I have reviewed the Pavillion audit summary, and I am uncertain what you are looking for. Rows 21, 23, and 25 indicate no findings. Therefore, there was no response. Row 29 indicates some findings and observations on the headspace analysis we did in Phase I. I responded to Dave Gratson's questions on 29 Dec 11 and have heard nothing else regarding that analysis since. Is there something more?

Please let me know if we are missing anything. If so, the more specific the better, and I will respond accordingly.

Thanks.

Andy,

Have you received the list of ADQs performed for the Pavillion work? I think it is in each ADQ is where the lab can find the list of QA findings and observations. If you have it, could you send it on to Mark?

Thanks,

Rob Parker

Subject: Pavillion Question

Rob,

The lab was suppose to get a spreadsheet listing all of the QA concerns. We have not gotten it yet. Could you send it to us so we can get the info back to you. I think it originates from Steve Vandegrift ???? We have the MDL data and will provide it to you soon. Thanks, Mark
